DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-5, drawn to a conduit joint, classified in class 285, subclass 141.1.
 - II. Claims 6-11, drawn to a method of manufacturing a conduit joint, classified in class 264, subclass 512.
 - III. Claims 12-14, drawn to a float valve, classified in class 137, subclass 202.
 - IV. Claims 15-20, drawn to a method of manufacturing a fuel cut-off valve, classified in class 264, subclass 510.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I or IV and III, respectively, are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the apparatus of Groups I and III can be made by coating instead of molding.

3. Inventions I and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the inventions of Groups I and III have different functions and effects.

Art Unit: 3753

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
